ANNUAL REPORT

2023 2024

Proposed 2025 Mamakating Library Budget Summary

The library is committed to providing excellent service to our community, now & in the future. The 2025 Proposed Budget reflects this commitment by allocating funding to maintain our building, collections, & programs, increasing the budget for digital materials & technology, & increasing our capital reserve funding to prepare for the future. The addition of a part-time media/marketing manager, general inflation, rising insurance premiums, & increased utilities costs have the most impact on the proposed budget.

A message from the Director:

What a year this has been! In the fall of 2023 the Mamakating Library officially became a Certified Sustainable Library. We completed over 175 tasks ranging from evaluating our purchasing policies, to putting in a generator, to building resilient partnerships with surrounding community organizations. We are so proud of this accomplishment and look forward to continuing our work in this area in the future.

Last summer we had our highest ever number of participants in the summer reading program, with almost 200 children dedicating at least 20 minutes a day to reading all summer. We are already looking forward to what this summer will bring.

We are also very proud to report that the library calculated a 705% return on the taxpayers investment last year—providing access to over \$2.8 million in materials & services to our community.

We are ever grateful to all of our patrons, volunteers, Friends group members, and community supporters. We couldn't do all that we do without you.
